THE WORLD'S STOCK EXCHANGES

The Equity Markets — Who Runs Them, What Trades There, and Where
A LIKE® Magazine Markets Guide

36 exchanges and exchange groups · Verified October 2026

October 2026

WHAT THIS LIST IS

A stock exchange is where a country's companies meet the world's savings. This guide is the equity side of LIKE Magazine's Markets department. Its companion, The World's Bond Markets (59 venues), covers the bond segments of many of these same operators in full; this guide cross-refers to it for bond segments and does not duplicate them.

36 exchanges and exchange groups are listed — every entry verified against the operator's own site, annual report or official release, with market scale on World Federation of Exchanges statistics for December 2025 where the WFE basis applies. The field set is identical for every entry. Where a field could not be verified, the entry says so plainly. Nothing is guessed, and no roster is padded.
